

Michigan Complete Health List of Drugs (Formulary)

The Pharmacy Department at Michigan Complete Health is charged with providing the most clinically sound and cost-effective drug therapy for our members. Due to ever-changing market conditions, there is an ongoing evaluation of therapeutic classes and new drugs that arrive on the market. Our Pharmacy and Therapeutics Committee, whose membership includes community-based physicians, pharmacists and other practitioners, make decisions for changes to the Preferred Drug List (PDL).

You can always check Michigan Complete Health's up-to-date Drug List which includes the procedures for prior authorization and other guidelines such as step therapy, quantity limits and exclusions, at <https://mmp.michigancompletehealth.com/mmp/prescription-drug-part-d.html>.

Things to know about our List of Drugs

- Our List of Drugs has remained consistent over time
- From time-to-time we do update our List of Drugs and notify you through our emailed quarterly Provider Report Newsletter
- For questions about our List of Drugs contact Provider Relations at **1-844-239-7387** or email **contracting@michigancompletehealth.com**
